

E-STILTS

Simple and Ingenious

I N T R O D U C T I O N

Inspired by stilts house – a pile dwelling that come with raised structure, and normally built over sand or above water, “E-Stilts” is created as our new leg. As found in Wikipedia, “Stilts” are pillars or posts to allow a structure to stand at a height above the ground, “E-Stilts” has come up to act as a desking system. Stilts house which is easy to construct and protect against nature elements of flood and earthquake applies to E-Stilts understructure. It act as a pile driver of strength on its foundation.

E-Stilts act as a simple, ingenious, and adaptive bench, for entire range of application in open workplace. It is a reconfigurable bench and suitable for any demands of office environment. On this basis, E-Stilts is offering a great flexibility to work across a wide range of configuration demands, from staff workstation to manager workstation and conference table.

Other Configurations:

WIRE MANAGEMENT

Intelligent designed wire management solution makes E-Stilts neat and easy to route power and data up to workspace.

Aluminium wire tray drives wires underneath the desk and uses metal wire riser box for storing massive wires, creates effective wire management solutions in workplace.

There is an optional way to route wires to table top, via E-Stilts table leg. This is ideal for executive workstation whose wire is small in capacity.
